

Concepts Discretionary Investments

Adventurous Portfolio

Portfolio Factsheet as at 31st July 2023

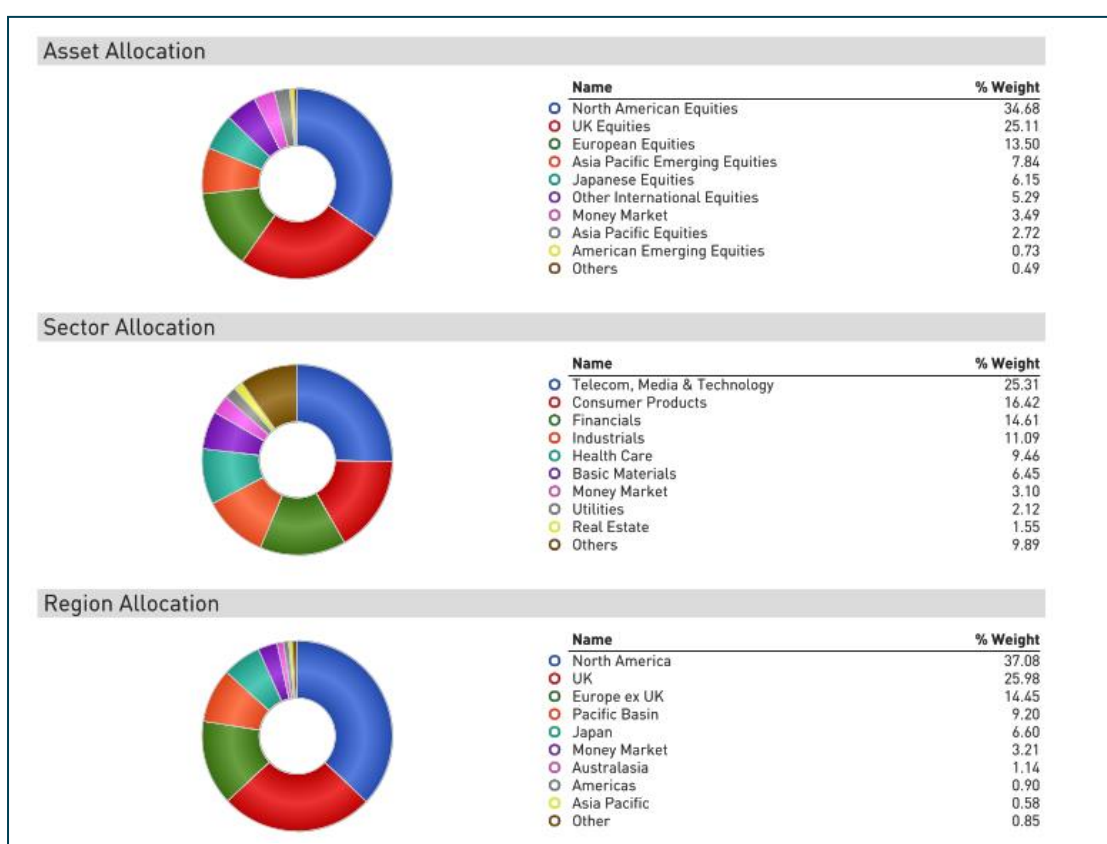

Objective: The aim of the Adventurous portfolio is to produce capital growth over the longer term. This portfolio invests in a diversified range of Equities (both UK and Global) which account for between 90% and 100% of the portfolio by weight. The remainder of the portfolio will be held in cash and there may not necessarily be any exposure to other asset classes, such as fixed interest, property or infrastructure.

Target Market: This portfolio is suitable for investors with a time horizon of 5 years or more who are willing to accept a high level of investment risk in return for the potential for participation in rising investment markets. This fund is not designed for investors who cannot afford more than a moderate loss of their investment.

Key Information

Portfolio Yield: 2.14%
Inception Date: 03/08/2023
Total Expense Ratio: 0.59%
Management Charge: 0.20%
Benchmark: IA Global

Portfolio performance represents client's portfolios which are periodically rebalanced. Performance has been simulated with performance prior to 03/08/2023 attained through backdating holdings at launch to the inception of these individual investments, and substituting where appropriate for indexes, to attain a longer performance history.

The value of underlying investments may fluctuate due to exchange rate changes between Sterling and the currencies in which underlying investments are denominated, as well as to risks associated with broader market conditions and events.

In addition to the charges noted above, individual funds may incur transactional costs.
